

## SHANK'S® CUSTOM PADDED FLAT TRANSFER CART TECHNICAL INFORMATION

### General Information

This Padded Flat Transfer Cart has been designed to transport a sedated animal. The table top layout of the Cart is modeled after the design of our Shank's® Floor Model Surgery Table. The Cart has a padded surface which can be made in various sizes depending on the specific needs of the customer. Common sizes are 48" wide x 84" long; 36" wide x 84" long; and 48" wide x 96" long. The Cart is completely mobile within a clinic setting. The Cart is at a fixed height of approximately 12".

### Cart Top/Frame

The Cart is comprised out of mild steel. The frame is then hot dip galvanized and covered with acrylic enamel for durability and protection.

The Cart top is fully padded with Shank's® Adhered Wall Padding. The Cart top has a heavy duty square tube port on both the head end and tail end, to receive a removable "T" push handle.

### Casters

This Cart is equipped with four (4) heavy duty 6" swivel casters. Two of these casters are equipped with locks, to allow for easier steering of the cart during transit.
